FOREST FIRE WARDEN'S REPORT

Crises like the present test the quality and sincerity of everyone's patriotism and citizenship. The times make such unavoidable demands for universal cooperation in the many lines of essential regular and emergency public endeavor that the response given may well be assumed to be the real measure of one's love of country and his appreciation of the opportunities it offers. Ranking high in the list of public endeavor is the protection of our forests from fire. It calls for full and generous cooperation by each of us. Fire statistics indicate that better than 98 per cent of all fires in New Hampshire are man-caused. If human carelessness could be eliminated from the problem, the number of fires would drop to a mere minimum of less than 2 per cent of present figures and fire costs and losses would reduce in proportion. While this goal will not be achieved because of the perversity of human nature, the record can be vastly improved through individual discipline, alertness and cooperation.

Discipline calls for personal restraint from following unrestricted natural impulses to do as one pleases with regard to fire; alertness in cautioning others against imprudent and illegal burning and in promptly reporting fires to the local forest fire warden; cooperation in complying with laws, rules, and regulations governing the kindling and care of fires, smoking, safety of mechanical units using fire in and near woodlands and assisting the local warden in extinguishing such fires as may occur.

The possibilities of disastrous and expensive woods fires are constantly becoming more real. The hurricane felled an estimated one and one-half billion board feet of standing timber, much of which was never cleaned up. To this hazard has been and is being added extensive areas of slash from additional hundreds of millions cut to produce vitally needed wood for the war effort. With

the stage so set, greater caution is increasingly necessary. It will pay substantial dividends in unburned forest areas and the saving of unnecessary fire expense.

The year 1943 was an extremely fortunate one because of favorable weather conditions. Many towns had no fires, some had minor fires while a few had expensive ones. The public controls the answer to the 1944 and future years' fire records. If the public is careful and cooperative the record will be good.

Your town warden is, perhaps, more perplexed and anxious during these war years than ever before because of increased forest fire hazards and diminishing supplies of available man-power. He looks directly to you to aid him. Will you? You can aid him most effectively by always securing the required permit before attempting to burn and by complying fully with permit requirements; by being patient when he advises of departmental restrictions on permit burning or that he deems it unsafe to burn; and by giving him the needed assistance in extinguishing fires when he needs your help. To do so is to meet one real test of citizenship.

ERVIN LANG,
Warden.

AUDITOR'S REPORT

Having examined the accounts of the selectmen, treasurer, clerk, road agent, trust fund trustees, and other officers of the Town of Hill, I find them correctly cast and properly vouched, and the financial statement true.

GRACE W. COLBY,
Auditor.

Feb. 15, 1944.

SUPERINTENDENT'S REPORT

The report of the Superintendent from year to year will have much of repetition as the work done in the school room is primarily of the same nature.

The work of the past year was badly handicapped by the epidemic of mumps, whooping cough and measles. The absences became so numerous that school was closed for ten days. So far this year attendances have not been seriously affected as has been the case in many places in the state.

The teacher shortage in New Hampshire as in the country at large, is critical. Many rural schools of the state had to be closed last September because no teacher could be secured. Superintendents made surveys of their respective communities to find anyone who ever had taught school and who would be willing to take up teaching again in the emergency.

Fortunately Hill had teachers right at home and were not effected by the teacher shortage.

Hill has reason to be proud of its graduates who have continued schooling at Franklin. In the past 15 years it has had valedictorians and pupils on the honor list of the high school.

This present year two of its girls have been chosen by their respective classes as their candidate for "Carnival Queen". This is a real honor as the candidate is selected by popular vote of the class. It speaks well for the personality, character and popularity of the successful candidate.

In school this year, monthly tests are being given by the superintendent and accurate records kept. The results of these tests together with the teacher's daily record will determine the pupil's class standing and promotion. It is hoped that such records will tend to awaken in the children of the upper grades a realization that class advancement depends upon satisfactorily meet-

ing certain standards of achievement and not just attending school a few years.

Just what effect the war will have on what will be taught in the schools and how it will be taught is at present uncertain. It is certain however, that there will be changes in subject matter and methods which the war conditions and experiences have proven necessary.

I commend the teachers for their faithful labors and results obtained.

I congratulate the pupils for their interest and faithfulness in purchasing war stamps.

I thank the School Board and citizens of Hill for the splendid spirit they have always exhibited towards their schools.

Respectfully submitted,

FRED S. LIBBEY,
Superintendent of Schools.
